

Applicants have amended the title, specification and abstract to conform to the elected invention, and have also amended the specification and the drawings to correct minor errors.

In view of the §112 objections raised by the Examiner, applicants have canceled all originally filed claims and presented new claims 49-72. These new claims read on the elected invention of Group V and have been prepared to remove the indefiniteness objections raised by the Examiner.

In view of the election, originally named inventors SWARTZ and KAHN are not inventors and should be removed. Accompanying this amendment is a Statement correcting the inventorship.

Also enclosed is a marked-up copy of selected figures of the drawings showing minor corrections for the Examiner's approval.

Wherefore, a favorable action is earnestly solicited.

Respectfully submitted,

KIRSCHSTEIN, OTTINGER, ISRAEL & SCHIFFMILLER, P.C.
